

# KUNAL DEEP

✉ [kunalsah3332@gmail.com](mailto:kunalsah3332@gmail.com) | ☎ +91-7992248259 | [GitHub](#) | [LinkedIn](#)

## Education

**Techno India Saltlake, Kolkata**

**Aug 2015 - Dec 2019**

Mechanical Engineering (MAKAUT Board)

**D.A.V. Public School, Urjanagar**

**April 2014 - May 2015**

Class XII (CBSE Board)

## Technical Skills

- **Languages** : javascript, HTML, CSS, Java
- **Library** : React JS
- **Framework** : Bootstrap
- **Developer Tools** : VS Code, GitHub

## Work Experience

**Codsoft | Virtual web development internship** | [certificate-link01](#)

**Jan 2024 - Feb 2024**

- Engineered three web applications with HTML, CSS, and Javascript, augmenting user insight by 20% for 500 users.
- Implemented best practices in coding and design, resulting in a 30% improvement in page load speed across all projects.

**Mitesh Auto Ancillary Pvt. Ltd. | Production Engineer** | [certificate-link02](#)

**Nov 2019 - Nov 2021**

- Refined workflows with real-time monitoring, decreasing downtime by 30% and increasing output by 20%.
- Established quality control measures, ensuring in a 15% reduction in defects.

**Rajmahal Area | Vocational Trainee** | [certificate-link03](#)

**June 2018 - July 2018**

- Enhanced technical skills through machinery maintenance, boosting efficiency by 30% and cutting downtime by 20%.
- Worked with teams to troubleshoot mechanical issues, elevating workshop productivity by 25%.

## Projects

**Shopping Cart Website** | [deploy-link01](#) | [github-repo-link01](#)

**April 2023**

- Built a shopping cart web application with JavaScript, HTML, and CSS, using promises and Async/Await, which significantly bettered client experience and amplified loading speed by 40%.
- Used advanced JavaScript, HTML, CSS, and the Storage API in a comprehensive project, enhancing data retrieval efficiency by 30% and uplifting participant interaction across 1,000+ sessions.

**Typing Speed Test Web Application** | [deploy-link02](#) | [github-repo-link02](#)

**June 2023**

- Created a typing speed app using ReactJS with hooks and Context API, Material UI, and Firebase, incorporating styled components for styling and the React Toastify package for notifications, resulting in a 35% boost in customer interaction.
- Enforced themes and test modes, raising typing skills by 40% during assessments.

**Personal Finance Tracker** | [deploy-link03](#) | [github-repo-link03](#)

**July 2023**

- Developed a finance tracking app utilizing React and Ant Design, integrating Firebase for authentication and **Firestore** for data management, concluding in a 30% progress in end-user data handling efficiency.
- Executed CSV import/export, enabling seamless data handling for 500+ consumer and upgrading user experience.

## Courses/Certifications

- Completed a full-stack development online course with a focus on frontend development through Accio Job.
- Acquired AutoCAD (2D/3D Mechanical) and CATIA (V5 R20) courses at Amity Computer Academy, certified by MSME.

## Extracurricular

- Organized events for 800+ students, heightening community engagement while participating in college activities.
- Led the volleyball team as captain, competing at state, district, university, and school levels, while serving as a representative in a 7-member college project team to drive successful project outcomes.

## Interests

- Playing Volleyball
- Painting and Sketching
- Surfing the latest gadgets
